

Hi there!

All of us at Dignity hope that you are really well.

This is a quick letter to explain the purpose of the **Journey** course and to explain how you could use it and how it would be great to have you involved.

Journey is a course we have created to develop the church together with apostolic and evangelistic gifting in communities throughout sub saharan Africa. We want to seek out the 'least first' and direct our efforts at those who are in poor and lowly parts of the community. Our aim is not to develop an organisation but to enable the release of individuals that God has called to be 'Strong Trees' in their community or village. (Isaiah 61:3)

The mission of Dignity is to share the truth, love and power of Jesus everywhere we can. We believe that the 'least' person can be used by God to transform their community for the good of everyone, reducing poverty of all kinds and increasing hope and a future. We help people to plant what are known as Life Groups. These are groups that unite those who know Jesus, learn about him, spread the message of Jesus and help the poor in their community. Many people have followed this call across Southern Africa and in other parts of the world too.

In 2020, we are launching *Journey* by running a trial course starting October with individuals that are known to us directly or known by our friends. That's where you come in.

Firstly, you may know of one or two individuals who have the right heart and are placed by God to make a difference within a poor community. We would love you to put them in touch with us. You can do this by passing them the details of Journey (enclosed) and encouraging them to get in touch. You may need to help them if they haven't got electronic forms of communication.

Secondly, we may need your help! Principally this may mean getting some materials to those who enquire and are accepted. If you are able to help with this, it would be fantastic if we could link one or two others in your area to you as well. As things develop, we will need to develop some people and structure to make things happen.

Thirdly, you will be aware of communities, villages and people groups that need to be reached. Our heart would be to identify individuals with you that into 2021 and beyond could be trained and enabled to reach their own people group or community.

We've tried to design **Journey** to be used by paper or sent by what's app and email and then printed. In time we are hoping to get everything online too. As people study **Journey** and apply it, we can work together to see a movement of God's people amongst the poor in the villages and communities that are known to us.

Thank you for taking the time to read this letter. Whether we have known you for years or are brand new to you, we really value the relationship we have with you. Together with the people He has called in the rural villages, high density areas and elsewhere we can make a huge difference to the Kingdom of God in this world.

God Bless

A handwritten signature in black ink, appearing to be 'Jon', with a horizontal line underneath.
